YOUR TEAM

Team work

Team work is everything in dragon boat racing. Synchronicity is more important than strength. A perfectly-synchronized team will almost always beat a stronger, but less coordinated team.

As an experience, dragon boat racing is rich in learning opportunities for any group. It brings together diverse players of different abilities and strength to achieve a common goal and offers corporate teams and groups a unique opportunity to explore group dynamics and increase productivity and effectiveness.

Your Team

A dragon boat team generally consists of 20 paddlers (not able to fill a boat with 20 people? Don't worry, Belleville Dragon Boat Club has seasoned paddlers who are eager to assist if you need additional paddlers) as well as a drummer at the bow. It is guided by a steersperson at the stern (a steersperson and a drummer will be provided for your team). Teams combine power and rhythm to achieve maximum acceleration and speed over a specified distance.

Our races are recreational, and many of our paddlers are trying dragon boat racing for the first time. Two (2) practices for each team will be provided in the weeks prior to the races, so you will have a chance to get your team ready to go.

Community crews are expected to participate in **TWO** practice times which will be scheduled when registration is received by the club.
